

CRUISE 'N' COLORADO

Monthly publication for Colorado Land Cruisers

Colorado Land Cruisers is a four wheel drive club based in Colorado Springs, Colorado, and sanctioned by [Toyota Land Cruiser Association](#). We are organized to bring together Toyota owning families and individuals interested in

From the President

Welcome CLC friends, World events have dominated the year and months have passed in blinding speed, it's hard to believe the year 2001 is coming to an end so quickly. Starting with drawn out election of president Bush and ending with the elimination of the Taliban, we have all experienced a lifetime of emotions, of happiness and sadness, from horrific to elation, 2001 will live forever in history, in the memories we will take to our grave.

On the home front, Pulled off a spectacular Land Cruiser event, our swap meet drew a respectable crowd of enthusiast, we made new friends and connected with old, and on top of that we made a chunk of change to boot. Club membership is growing. Trail rides have been varied with participation from spectacular to nil, difficulty from 4+ to scenic and trail head from near to far. We've seen members conquer the likes of Penrose and the Rubicon, nether a small feat in difficulty, preparation and endurance, all kissing our broken bones and bruises and bouncing back for more. The 2002 trail schedule looks even more promising; Andy has put together a great list of trails for us, we are also expecting a large club turnout for the Black Hills Cruiser Classic-2002. Trail adoption and a new BOD's are on the horizon. Lets make 2002 a year to remember- for the good things.

Merry Christmas, Happy New Years, Cheers and God Bless,

Notes from the Editor

The New Guy

Howdy Everyone!!

For those of you who don't know me, I'm Charlie Terrell, better known as supercharlie. As of Dec. 1st, I will be taking over Rod's position as Newsletter Editor. I am very new at this stuff, so bear with me as I try to publish the best newsletter that I can. Here's a little background info on your new editor. I drive a blue '80 Toyota Truck (Mini's Rule) with 33's, five inches of lift, and a good tune up. I have lived in Colo. nearly all of my life, and have been wheeling since I was a boy. I have come to both enjoy and love these Colorado mountains. They are as rugged as any in the world, yet it doesn't take much to cause long lasting damage to the trails that we ride. As Darryl is fond of saying, If it isn't marked with an arrow you shouldn't be there. Remember to take care of where you wheel, and our trails will last for generations to come. Happy

This month's rig belongs to our newest member, Chuck Terrell. He is no stranger to the club, and has been on many runs with us. This is his new, to him, 1980 Toyota Pick up. This rig has almost everything you could want in a four wheel drive. It's equipped with 32" BFG's about 7 inches of lift, and ARB's front and rear. The power is
